## Project DG - 389

### Bahçeşehir – Istanbul

## Project Details

A wonderful project in the nature arms within the Bahçeşehir region, which is famous for its pure air and picturesque nature.

An investment and residential project at the same time, characterized by its proximity to the most important strategic project of the Turkish government, the Istanbul Water Canal project, which gives the project investment importance and leads to a high demand in the future.

The project includes 6 buildings, each building consisting of 8 floors, as well as 13 commercial units that form the main structure of the project shopping center, which provides the residents with all their daily necessities.

Green spaces are distributed on the sides of the project, giving it an attractive natural space, in addition to the social facilities that give the residents complete luxury and take care of their comfort.
